OER Description Module 15: Learning activities and options – OERs & MOOCs

This document describes the use of Module 15 as an Open Educational Resource. This covers:

- The transfer to another server
- The Translation to a different language

1 Package files

The package contains all files that are necessary to implement the module on a Moodle Server.

[1] Module_15-backup-moodle2.mbz This is the Moodle download file. You should use it to create the course on your server

[2] OER_Description_Module_15.docx This file contains the description of the package and the translation guide.

[3] Mandala_15.pptx This file is the master to create the Self-Evaluation Mandala

[4] Presentation of the module_M15.h5p. This file contains the h5p timeline used at the beginning of the module. It's a useful h5p interactive tool to present the main steps and topics that the learner is going to go through.

[5] 21st century education.h5p (interactive video). This video was uploaded from Youtube and then converted into an h5p interactive video through pop-up texts which describe the main steps of the tutorial. You can also add quizzes.

[6]M15.1-Onine learning platform.h5p (presentation)

[7] M15.2-Online courses.h5p (presentation)

[8] M15.3-Open educational resources.h5p (presentation)

[9] M15.4-Language-based dictionaries.h5p (presentation)

[10] M15.5-Social Media Fora.h5p (presentation)

[11] M15.6 -Online learning platforms (book).This is a Moodle activity which allows teachers to create multi-page resources with a book.-like format with a table of contents. Different screenshots and images were used to show examples and logos of said platforms and online learning opportunities.

[12]Glossary. This is another Moodle activity which allows to create and maintain a list of words and related explanations to support the learning process. The word can be disseminated through all the modules.

[13] M15-Final_Self-Assessment.elp. This is the Master file for the final self-evaluation.

2 Transfer to another server

The following steps are necessary to create the new course on your server:

[1] Create a new empty course

[2] Restore the backup in this course

3 Translation to a different language

The translation for the module can be done completely in the course on your Moodle server. Two major steps are necessary:

[1] Go to the content bank and translate the H5P content listed there.

[2] Open the course for editing. Select “settings” for each item in the course and translate the content.

4. Additional translation steps

[1] Use the Mandala_15.pptx file, open it with PowerPoint. The file includes the English Version of the Self-Evaluation Mandala. Translate the text and save the file. Save the file using “save as” and select PNG. When saving, you get asked to select “this slide only” – select it. Now you have the PNG file of the Mandala in your folder. Replace the English picture with this translated. Finally, Check the links in Moodle.

[2] M15-Final_Self-Assessment.elp.

For translation download the eXe-Learning Editor from https://exelearning.net/en/downloads/. You can use the Install Version but you can also select ”A single Page” in the “Portable Version” and use it. Open the file with the eXeLearning editor and translate the complete content. After the translation, save the file and export it to a “Single Page”. ZIP the complete content in the created folder. Select the Moodle page, upload the ZIP file and extract it. The current content will be replaced by the new language content. Select the index.html file as the main file (if this is not yet selected).

[3] The Self-Evaluation mandala can be used from the output of [1]

[4] The section Creative Commons CC & Copyright Page contains an image describing the various CC licences (in English Language). You may replace it with the version in your language (download it from the https://creativecommons.org/ web page).
