Description of the Training Module 10

# Training Content Framework: 10 Digital Help for Daily Problems

<b>Module title</b>	<b>Digital help for daily problems</b>
<b>Notional Learning time</b>	3 – 5 hours
<b>Description of the module</b>	This module describes 4 major typical problems that can be identified by the user and also might be solved by the user.
<b>Learning objectives</b>	Know about strategies to successfully retrieving information to solve daily problems Formulate the search items in a successful way Analyse the search parameters and the found feedback consequently in an optimized way
<b>Steps</b>	Introduction 4 Case studies with Self-evaluation Further examples Other common information retrieving situations Summative evaluation
<b>Material</b>	
Learning content	The content is split into micro learning units, each unit represents a specific topic: <ul style="list-style-type: none"> <li>● Presentation of an “Analysis System“ to express the need for information in a practicable way (“key-word analysis“ system), including practical hands-on activities</li> <li>● 4 Case studies<sup>1</sup> (with given solutions) for technical and contextual information, for an image search and video sources procurement.</li> <li>● Other examples (short kept content)</li> </ul>
Learning content type in Moodle	<ol style="list-style-type: none"> <li>1. Introduction (H5P Course Presentation) H5P Interactive Video<sup>2</sup>: <b>6 Ways to Find What You Want on the Internet</b> <a href="https://www.youtube.com/watch?v= CRGpGlc8AI">https://www.youtube.com/watch?v= CRGpGlc8AI</a></li> <li>2. 4 different case studies (with solving &amp; solutions for the question/problem)</li> <li>3. Self-evaluation for each case study</li> <li>4. H5P Branching Scenario as a hands-on practice</li> <li>5. Quick information for other common information retrieving situations</li> <li>6. Summative evaluation (T/F, gap test)</li> </ol>
Activity/Task	<ul style="list-style-type: none"> <li>● Run the H5P Course Presentation (= continuous assessment)</li> <li>● Work through the 4 case studies</li> </ul>

<sup>1</sup> A case study is a descriptive and exploratory analysis of a person, group or event

<sup>2</sup> Video might be used in other languages by activating the subtitles in each language.

**Hint:** A transcript might be offered for other languages (besides English).

	<ul style="list-style-type: none"> <li>● Carry out the self-evaluation to check the learning results</li> <li>● Work through the brief descriptions of the other examples</li> <li>● Do the interactive practical work</li> </ul>
